

Pieces parts

Contributed by Eric Fritz
Monday, 31 October 2005

Man, oh man. I'm up to my elbows in parts from stripping the car down . . . and I'm not even close to being done for the cage install. I'm not just talking about the normal stuff that comes out of the car, either . . . there's a bunch of stuff that gets to come out that got ADDED years ago.

although, there's quite a bit more room under the dash now.

I'll be putting a list of everything that's up for sale here in the next few days -- nobody's getting dibs right now, so there should be quite a bit of stuff.
